- Prices are in NZD and exclude GST.
- Pivotel reserves the right to modify or delete plans as necessary, including while in commitment.
- To be eligible for the Fleet One Global Plan, the following conditions must all be met at all times throughout the Service Term:
 - Vessels must have a Maritime Mobile Security Identity (MMSI) which is to be provided upon provisioning
 - Vessels must receive the service using an Inmarsat type approved Fleet One terminal, and
 - "Vessels" must not be floating / fixed platform, or rigs
- Pivotel reserves the right to cancel the service and/or retrospectively re-rate any usage charges if the vessel is found to be ineligible for the Fleet One Global service at any time.
- These Fleet One Global Prepaid Vouchers are not able to be used with the original 2014 Fleet One Prepaid Services (with in Home Region vs. Out of Home Region burn rate configuration)
- Multi-Voice, ISDN and Streaming Class Services are not available on Fleet One activations.
- No geographical restrictions are present for either data or voice services with Fleet One Global plans.
- SIM Validity will be based upon the current expiration date or the voucher validity from the date of recharge, whichever is later. The addition of multiple vouchers of the same type on the same date will not extend the validity further than the addition of one voucher.
- Inmarsat Prepaid expirations occur at 00:00 UTC for the expiration date in question. To ensure existing airtime is not lost, recharge should be processed at least 24 hours prior to expiration.
- Unused units will roll over if the SIM is recharged prior to the expiration date.
- Prepaid Vouchers can be removed within 72 hours of initial load, free of charge. After 72 hours, a Voucher Removal Fee will apply.
- Vouchers cannot be removed from an expired SIM or more than 60-days from the original date of recharge.
- Only the most recently added voucher can be removed. Vouchers cannot be removed if any units have been used.

Pivotel Inmarsat Prepaid plans use the Inmarsat Mobile Satellite Network. Satellite reception limitations and some exclusion zones apply. Visit <https://www.pivotel.co.nz/inmarsat-coverage> to view a coverage map. Prices quoted are in NZD excluding GST and are subject to change. Calls will be deducted from the prepaid balance in 15 second increments, with a 30 second minimum. Data usage will be deducted from the prepaid balance in 20KB increments with the minimum increment of 20KB per session. A compatible Inmarsat Satellite device is required to access the Pivotel Inmarsat Satellite service (see handset pricing).
